FOREWORD

Dear Ankole Friends

Thank you for joining us for this 2nd Annual Fire Sky and Friends Prestige Ankole Heifer Auction. The resounding success of last year and your support has paved the way for this auction, and many more to come!

When we set out as Ankole farmers 5 years ago, it was nearly impossible to buy quality young heifers at an auction. Today you can pick and choose from 29 phenomenal lots!

A special note of appreciation goes towards Annemie Swanepoel, the remarkable farmer who makes Fire Sky possible. In an incredibly tough set of circumstances, she has shown us all what detailed, caring, precision farming can look like. She is an inspiration to the rest of us. It truly takes a network of passionate people to successfully farm Ankoles and we want to express our appreciation to Absolute Genetics and Ramsem, Embryo Plus, Horn and Hoof, Polokwane Feeds, as well as Blue Bean creations, and of course the Ankole Society of South Africa. For this auction to have happened we leaned heavily on Veewinkel and the capable support of Chris Koch and the team. Brandon Leer will as always make this a memorable day!

Thank you to the teams of Fire Sky, Bona Bona, Ntaba Nyoni, Benella, Ubhejane, Kilima, Hope, Ni-Da and Lumarie for offering the absolute best genetics in the country!

May you leave with the young Ankole heifer of your dreams!

FOREWORD

Dear Ankole Farmers & Enthusiasts

When the inaugural Fire Sky and Friends Prestige Ankole Heifer Auction was launched by Bernard Swanepoel on 1 February 2025, there were some breeders who were quite skeptical as to whether the auction would succeed. Bernard, and may I add, Zack whom I am reliably informed, initiated the idea, had every reason to be elated when the auction achieved a total revenue of R7,500,000 from 23 lots and an average price of R326,000 per lot. It was a resounding success achieved by a trail blazer not only in the mining industry but also in the Ankole cattle industry.

Last year's auction followed various years of extreme weather conditions with significant droughts where Ankole cattle proved their worth when continuing to perform very well on marginal agricultural land with poor grazing. Most of the country has now had two outstanding summer seasons with above average rainfall which will undoubtedly motivate the serious Ankole farmers to further invest in this exceptional breed. I have said it before and I will say it again - this breed is in its infancy... There will never be a better time to invest in resilient animals that are perfect for our African environment. Now is that time!

This year Fire Sky and Friends are presenting 29 exceptional heifers all under the age of 2 years, most of them almost ready to be impregnated by the males of your choice.

Once again and as expected, Bernard and Zack, ably assisted by VeeWinkel, have presented a superb line up of full-blood prestige heifers. My congratulations on an excellent job.

I wish all the breeders who are offering young heifers for sale all the best and I encourage and congratulate all the buyers on their purchases. Investing in young heifers is guaranteed to get your 2026 breeding year off to a great start.

All the best!

SIRE: 44 1/8" ZEUS / R19-004

DAM: 52 4/8" KYASHA / A07-042

Additional info: Zeus / R19-004: Zeus is Fire Sky's gentle giant. At just under 4 years of age he weighed 750kg! With prominent male features, he is a perfect Ankole bull specimen. Zeus brings the BA2 bloodline via his dam Kamali (A11-526), whom herself has blue blood parents in A07-006 and A07-018. With his hardened and tick resistant deep dark brown skin, everything about his body and build shouts masculinity. Through Kamali, Zeus is also a half-brother of Fire Sky's famous Mosi, which has a phenomenal trophy measuring 51" at 7 years of age.

Additional info: Kyasha A07-042: What more needs to be said about Kyasha. With her perfect horns measured at 52 4/8" and with 20" bases, Kyasha is the benchmark Ankole cow in South Africa. Kyasha is the top specimen of the BA1 and A21 lines - with phenomenal fertility! She has done brilliantly with all the bulls we have used her with. Kyasha's daughters are among the top animals in many herds, and now you have a chance to buy into the top female line in SA.

Other info: Combining a top proven cow like the +52" Kyasha with the phenomenal potential of the young giant Zeus excites us! There is absolutely no down side in this genetic combination and lots of explosive potential. Definitely one of this auction's, Fire Sky's and the country's top offerings! We promised to offer top genetics at our premium young heifer auction and this clearly is that! Last year this exact combo was our top lot. A year on, Tortilis's Anton Taljaard describes her as exactly the young heifer with which he can build his elite herd. This Princess has the perfect traditional Ankole features and promises to be as fertile as her mother's famous A21 bloodline, with a spectacular trophy to match.

Double Delight is named after one of South Africa’s most beautiful roses, the “Double Delight,” symbolising the love and double excitement she is sure to bring to her new owner. Her maternal lineage is further strengthened by her granddam, the renowned 47 5/8” Botse — one of South Africa’s most proven Ankole breeding cows (exceptional embryo flushing and OPU records), celebrated for producing superior-quality offspring. Botse’s exceptional breeding record underscores the strength and reliability of this elite genetic line. With such a powerful and prestigious pedigree, Double Delight represents a remarkable opportunity for any serious Ankole breeder. Elite Genetics. Disciplined Breeding. A Next-Generation Ankole Herd.

Hope Private Game Reserve has built a strong farming foundation over more than 16 years, working with species including Buffalo, Nyala, Roan, and Sable—guided by a long-term commitment to genetic excellence and sustainable value creation. Since 2023, the Hewitt family has implemented a highly focused Ankole herd-building programme, founded exclusively on owned, elite genetics introduced through embryos. This disciplined approach allows for absolute genetic control, accelerated progress, and consistent, predictable phenotypes—using only proven top-tier genetics applied with precision and intent.

The foundation of the programme includes co-investment in leading Ankole genetics, most notably the elite bulls *Tshinakaho*, *Optimus Prime* and *Maximus*, supported by exceptional females such as *Akira*, *Adira*, and *Daisy* (45”), full sisters to *Optimus Prime*. These cornerstone animals form the genetic backbone of the herd, with ongoing investment in carefully *selected new genetics* to ensure sustained excellence and future breeding depth. The programme is guided by the specialist insight of Dr’s Morne and Sean Luc de la Rey, in close partnership with his highly respected team at Embryo Plus. Their world-class technical expertise and hands-on involvement have been instrumental in shaping a herd built with discipline, intention, and long-term vision.

Through focused investment, elite embryo genetics, and trusted partnerships, the Hewitt family is purposefully establishing a leading Ankole herd—one that reflects heritage, science, and a commitment to excellence that will endure for generations.

Built on Embryos. Driven by Excellence.

SIRE: 52”+ CUMULUS / NANK10-120

Additional info: Sire: Cumulus / NANK10-120. Aurora is the only daughter on offer at this auction from the late Cumulus. Do not miss out! Cumulus was a top breeding bull with quality genetics that have the potential to improve any herd in the country. As noted by Daniel Naude, Cumulus boasted a Rutara horn derived from his spectacular dam A26. His sire, BA2, is well known to have bred great bulls. Cumulus had a long body structure that is solid, and he has bred a variety of colours from deep Bihogo brown to even mottled white patches.

Notes: Princess Aurora is a genetic combination you simply cannot afford to miss out on! Last year, this exact combo, but a year younger than this princess, fetched R360 000 for Ntaba Nyani at our auction! With her deep Ugandan brown coat, she inherits her striking horns with their remarkable potential from her parents! She is already ready to be put with the bull of your choice! She is the ideal young heifer for any buyer – this one is one to watch!

DAM: 42 4/8” WONDER / NANK16-003

Additional info: Dam: Wonder NANK16-003. Aurora’s Dam, Wonder is a deep red, long cow with good capacity and good mothering ability and measures 42 4/8”. Wonder descends directly from the mercurial A21 on her dam’s side (similar to our own Kyasha) and A15 through her sire. Aurora combines some of the best genetic bloodlines in the industry and stacking the quality horn lengths of 52” x 42 4/8” makes her line a future powerhouse!

SIRE: 45" DYAMBO JUNIOR / NANK19-018

Additional info: Sire: Dyambo Junior / NANK19-018. Dyambo Junior, already at 45", is a son of the iconic 49 4/8" Dyambo who is well known for breeding exceptional offspring with thick and long horns. Dyambo Junior carries superb genetics that are not easily surpassed. His famous sire is a BA1 and A4 combination, but he possesses an additional dose of all things great through his dam NANK06-030, a BA1 and A5 product (similar to Merlot). This young bull stands out amongst the Dyambo sons, because of the absolutely amazing genetics from the dam's side. Dyambo Junior adds fertility, demonstrable growth, and performance to all his daughters.

Notes: With such a combination of proven breeding pedigree, Princess Haya stands to transform any herd. She possesses a good body and structure, and we know from her bloodlines that she will breed bont just as easily as brown. Milky Way has proven again and again just how much bont she can make! Quite honestly, the most surprising thing about this power combo is that she is not mottled like her dam and granddam herself. This princess is the heifer to suit any breeding desire!

DAM: 42 1/8" MILKY WAY / LU17-012

Additional info: Dam: Milky Way LU17-012 is an incredibly mottled daughter of the renowned 47 5/8" Botse! Her half-sister through Botse is LU18-005 Velvet, a 48 2/8" icon of our herd. Milky Way has consistently been one of the most prolific embryo donors for us. She is an excellent combination of BA2 and A15 with Botse being a BA3/A26 combination. This dam line is loaded with bont potential and exceptional fertility!

Notes: As Bernard's favourite lot, it took a lot of family debate to decide to sell Princess. This amazing young heifer is a dream come true for any serious Ankole farmer. That's the problem with having a successful auction – you need to sell the best! With her beautiful shades of brown this young Princess has the potential to become the jewel of your herd – and your heart! Both her parents are proven top genetics with 45"+ trophies. Don't be surprised if you see Bernard trying to buy her back afterwards.

Her sire A6-003 is a BA2/A17 combo, but she has also inherited some royal blood from her dam which is ANKGEN A7-009 (a BA1/A23 combo). We expect brown and roan colourations from this amazing cow in her progeny.

SIRE: 44 1/8" ZEUS / R19-004

Additional info: Sire: Zeus / R19-004. Zeus is Fire Sky's gentle giant. At just under 4 years of age he weighed 750kg! With prominent male features, he is a perfect Ankole bull specimen. Zeus brings the BA2 bloodline via his dam Kamali (A11-526), whom herself has blue blood parents in A07-006 and A07-018. With his hardened and tick resistant deep dark brown skin, everything about his body and build shouts masculinity. Through Kamali, Zeus is also a half-brother of Fire Sky's famous Mosi, which has a phenomenal trophy measuring 51" at 5 years of age. No doubt he has the genetics to grow well beyond his current 44" horn length.

Notes: Evette is a shining example of the beauty of bont! Eve is the foundation of Fire Sky's bont breeding, and with her genetic line producing both Botse and Velvet you can see why! With Evette's striking white coat, she is sure to draw anyone's attention. This gorgeous princess is the result of Fire Sky's scientific embryo program, showing exactly the upside to carefully combining quality genetics! Buy into the bloodline that has given us Botse, Velvet, and Milky Way so far. Will Evette be the next?

DAM: EVE / FSAN22-003 (YOUNG FOUNDATIONAL COW)

Additional info: Eve FSAN22-003. Eve is the first heifer born on our farm, from an embryo that had been frozen for 16 years! Despite her young age, she is a foundational cow! She has the sweetest nature and a beautiful build for such a young heifer. Her sire is BA3 and her dam the phenomenal A26, making her the full sister of NANK07-014, NANK09-003 Lindi, as well as the 47 5/8" NANK09-006 Botse. She is the maternal sister of both Cumulus and Maximus! Like with Botse, the bloodline has combined for the perfect mottled look. Eve has also been a reliable embryo donor from a very young age. The A26 line is known for horn length and super fertility. This is genetic gold! At 3 years, Eve has a stunning trophy of 29", a base of 15 4/8" and a tip to tip of 49 6/8".

She was a prolific embryo donor, meaning she brings great fertility to her offspring! Unfortunately, she died at a young age but she lives on through her progeny.

Notes: We aren't entirely sure why we aren't keeping Adira at Fire Sky. I mean, we saw firsthand just how ridiculously fertile her dam Sky was. Moreso, she just adores a good cuddle and scratch. Her nickname is "Adorer" for a reason! Our giant Zeus and Sky have produced a stunning mottled heifer in the Princess Adira. This combination of bloodlines has enormous potential – imagine what Adira will do for your herd in a few years' time!

SIRE: 45" DYAMBO JUNIOR / NANK19-018

Additional info: Sire: Dyambo Junior / NANK19-018. Dyambo Junior is already a 45" son of the iconic 49 4/8" Dyambo who is well known for breeding exceptional offspring with thick and long horns. Dyambo Junior carries superb genetics that are not easily surpassed. His famous sire is a BA1 and A4 combination, but he has an added dose of all things great through his dam NANK06-030, a BA1 and A5 product (similar to Merlot). This young bull stands out amongst the Dyambo sons, because of the absolutely amazing genetics from the dam's side. Dyambo Junior has quickly converted his potential into demonstrable growth and performance!

Notes: You can really see the care that Annemie puts into these animals by just how quickly Zobuhle runs up for a scratch every time! Thanks to her dam Black Beauty, Princess Zobuhle's coat has a gorgeous dark undertone accenting her mahogany colour. Her horns already stand out at just over a year old! The remarkable pedigree of her sire Dyambo Junior is already showing. If you match her with a mottled bull, you will breed the exceedingly rare and highly sought after black mottled colouration.

DAM: BLACK BEAUTY / FSN22-004

Additional info: Dam: Black Beauty FSN22-004 is the daughter of Black Diamond and shares many of her mother's good characteristics such as her entrancing coat. She even has a further dosage of the A26 bloodline from her sire's side. She is another prolific embryo donor at a very young age. By combining her with our top BA1 bull, she has created some really exciting progeny like Zobuhle!

SIRE: 44 1/8" ZEUS / R19-004

Additional info: Sire: Zeus / R19-004. Zeus is Fire Sky's gentle giant. At just under 4 years of age he weighed 750kg! With prominent male features, he is a perfect Ankole bull specimen. Zeus brings the BA2 bloodline via his dam Kamali (A11-526), whom herself has blue blood parents in A07-006 and A07-018. With his hardened and tick resistant deep dark brown skin, everything about his body and build shouts masculinity. Through Kamali, Zeus is also a half-brother of Fire Sky's famous Mosi, which has a phenomenal trophy measuring 51" at 5 years of age. No doubt he has the genetics to grow well beyond his current 44" horn length.

Notes: Leia is Zack's favourite lot at the auction (not just because he is a massive Star Wars fan)! She combines the incredible bloodlines of Kiona and Zeus to create an animal with absolutely everything you could ask for. With so many pinnacle animals such as Mosi, Cumulus and Merlot littering both sides of her parentage, Leia is sure to launch any herd into the stars! One thing is certain. The force will be with her, wherever she goes.

Previous measurements: Kiona - Horn length: L: 34" ; R: 34", Base: L: 15 6/8" ; R: 15 6/8" , Tip to tip: 9 3/8

Additional info: Dam: Kiona DFN22-028. Kiona is a Bihogo brown, superior quality heifer sired by the incredible Cumulus (NANK10-120, BA2 & A26), a Rutara horn-shaped 52" bull that sold for a record price of R1.65m at the 2022 National Ankole Auction. Her dam is 48" Merlot (NANK06-006), boasting genetics of BA1 x A5. Merlot sold for a record price at the 2023 National Ankole Auction. "At a young age, Kiona is showing the same excellent fertility as her famous dam. She is the perfect specimen of an Ankole heifer, living up to her record-breaking parentage! This is a tangible demonstration of the outbreeding of top proven genetics. Feel free to pair her with the bull of your choice!"

"Google has been a bastion of Lumarie's breeding for years known for his "exceptional breeding answers." He is one of the top breeding bulls in the country and it shows!"

Notes: As the daughter of both Imali and Google, Princess Salma carries the best of the best genetic potential. This offering is an incredible combination of the top bloodlines you could find! At a year and 6 months already, this beautiful little princess is ready to be put with a breeding bull of your choice to create whatever your heart desires! Her horn set is already showing excellent early growth and an outward flare, displaying the promise inherited from both parents.

**DAM:** 46 4/8" IMALI / A14-015

Additional info: Dam: Imali A14-015 is the daughter of the famous 51 4/8" foundation cow Texas. Texas of course is a BA1/A17 full sister of Benella's Aura, one of South Africa's very best foundational cows. Imali encapsulates what we at Fire Sky are looking for in an AnkoLe stud cow, both physically as well as aesthetically! This is the famous A17 bloodline in action, combined with A34 to produce some of the top genetics in the country!

SIRE: 45" DYAMBO JUNIOR / NANK19-018

DAM: MILA / R20-006

Additional info: Sire: Dyambo Junior / NANK19-018. Dyambo Junior is already a 45" son of the iconic 49 4/8" Dyambo who is well known for breeding exceptional offspring with thick and long horns. Dyambo Junior carries superb genetics that are not easily surpassed. His famous sire is a BA1 and A4 combination, but he possesses an additional dose of all things great through his dam NANK06-030, a BA1 and A5 product (similar to Merlot). This young bull stands out amongst the Dyambo sons, because of the absolutely amazing genetics from the dam's side. Dyambo Junior has quickly converted his potential into demonstrable growth and performance!

Notes: Grace is an exceptionally well-structured young heifer with a deep, uniform mahogany coat that instantly sets her apart. With Dyambo Junior's proven horn genetics and Mila's fertility and capacity stamped clearly on her, Grace is the type of heifer that quietly becomes a foundational animal. She is a beautifully balanced princess with all the traits serious breeders look for – dependable growth, strong colour, and superb maternal potential.

Additional info: Dam: Mila R20-006. Mila is a well-built, slightly mottled red/brown heifer with a strong set of wide horns. Mila showed significant potential from a young age. She is a good balance of BA1 with A13 and BA2 with both A17 and A32 and has proven to be an amazing embryo donor.

SIRE: (NANK19-014) **FULL-BROTHER:** 45" DYAMBO JUNIOR

DAM: 42 4/8" ANELE / NANK18-001

Additional info: Sire: NANK19-014. Jasmine's sire is a son of the 49 4/8" Dyambo and brings together A4/BA1 with the A32/BA2 lines. These lines are well proven and have bred some of the best animals in the country. This is a fantastic genetic combination which carries through strongly to Jasmine.

Additional info: Dam: NANK18-001. Anele is a beautiful and well-structured, feminine Ankole cow. She has a stunning glossy brown colour and beautiful symmetrical horns. Her sire is the original Bumba, himself a product of BA2 and A24, and BA1 and A1. Anele is a classic Ntaba Nyoni cow, which enhanced our breeding program with strong genetics.

Notes: Jasmine is a beautifully built young heifer whose elegance is immediately apparent. She carries a rich, glossy brown coat inherited straight from her dam, complemented by a striking femininity in her face and frame. Her horn set is already showing impressive symmetry and early outward flare, hinting at the remarkable potential of her A4/BA1 and A32/BA2 genetics. She is balanced, calm-natured, and displays the effortless presence typical of the Dyambo line. This princess is a serious contender for anyone looking to strengthen both structure and aesthetic appeal in their herd – a true quietly powerful young heifer with all the makings of a future standout.

SIRE: RUHUGO / A21-003

DAM: 42 1/8" MILKY WAY / LU17-012

Additional info: Sire: Ruhugo / A21-003. This young giant (670kg) is proof of what can be achieved with the BA2 bloodline. His sire was a BA2 and A17 combo, and his dam is the iconic 45"+ Sheba, herself a BA2 and A10 combination. He is a super fertile bull, with strong offspring. The name Ruhugo describes his beautiful deep red colour, combined with a loose and smooth skin which makes him well adapted to the harsh and warm bushveld. It is only his huge and perfectly balanced frame that makes his stunning troggy (base17", length 39" and tip to tip 52 4/8") not look more pronounced. He is suffering from success!

Notes: As the oldest of our offerings at this auction, princess Odette is perfect for anyone wanting to create the future now. She carries abundant genetics for superior fertility, and will bring this strength in spades to whoever is lucky enough to get her! You will surely be able to improve your genetics much faster if you have Odette in your herd. She is ready for the bull of your choice.

Additional info: Dam: Milky Way LU17-012 is an incredibly mottled daughter of the renowned 47 5/8" Botse! Her half-sister through Botse is LU18-005 Velvet, a 48 2/8" icon of our herd. Milky Way has consistently been one of the most prolific embryo donors for us. She is an excellent combination of BA2 and A15 with Botse being a BA3/A26 combination. This dam line is loaded with bont potential and exceptional fertility!
